Dear Jim,

EH&S visits each lab on campus at a minimum of once a year. An EH&S assessment was conducted recently in Morrill I 236 and 243.

The laboratory safety evaluation was based on the Occupational Safety and Health Administration (OSHA) Laboratory Standard, the National Fire Prevention Regulations, Environmental Protection Agency (EPA), and MA DEP Hazardous Waste Regulations.

In general, your laboratories were in good condition. Attached are the results of the lab assessments.

Please respond within two weeks of receipt of this email regarding your laboratory's progress with the compliance recommendations.

If you have any questions please do not hesitate to contact me by email: fugzoe@ehs.umass.edu or phone: 545-5113.

Please confirm receipt of this email, and if there is another/different contact person in your laboratory, please let me know.

Thank you.
Alesia
